Window reveal and lintel system Lai-Sys

Thermal bridge-free fixation in thermal insulation composite systems

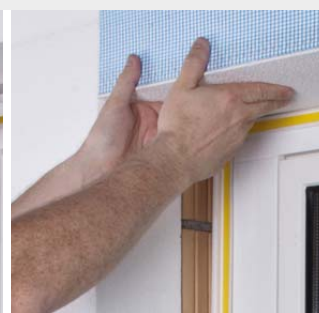

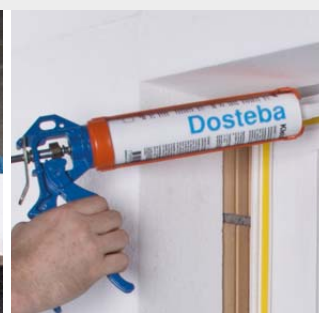

Fixation

Accessories and tools

- 1 Connector profile type U-DA
U-profile, white PVC with sealing lip and cover strap, self-adhesive, hidden
- 2 Connector profile type U-DA
U-profile, white PVC with sealing lip, cover strap and highly flexible movement membrane, self-adhesive, hidden
- 3 Connector profile type L
L-profile, white PVC, self-adhesive, hidden
- 4 Connector profile type U-AL
U-profile, white PVC with cover strap, self-adhesive, visible
- 5 Connector profile type U-ALR
U-profile, white PVC, self-adhesive, use laterally on roller shutter guide rail
- 6 Connector profile type U
U-profile, aluminium, use with roller shutter casings
- 7 Plug connector profile
PVC, 22 mm x 600 mm
- 8 Compriband, width 15 mm
- 9 PU foam DoPurMo
- 10 Adhesive sealant PL-Hybrid
- 11 Fixing pins
- 12 Battery-powered hand-held circular saw
- 13 Plough plane
- 14 Universal cutter for connector profiles
- 15 Pressure roller
- 16 Bevel

Window reveal and lintel system Lai-Sys

The solution

The window reveal and lintel system Lai-Sys allows professional soffit execution in perfect quality with short installation times.

Our quality

Window reveal and lintel elements Lai-Sys are available in EPS, PU or mineral wool. Window reveal and lintel elements Lai-Sys can be coated using all standard coating materials for thermal insulation composite systems. Depending on your requirements, you can choose between four connection profiles. The connection profiles guarantee the tightness of the window connections. The cover strap on the connection profiles guarantees an exact colour edge.

Your advantages

- ✓ Simple, trouble-free mounting
- ✓ Permanent leak-proof connections with windows and doors
- ✓ Outstanding insulating properties
- ✓ Visually coordinated and functionally safe and secure
- ✓ Rapid completion
- ✓ Cost-effective

The product

The window reveal and lintel system Lai-Sys includes a window reveal element, a lintel element and a connector profile. Window reveal and lintel elements Lai-Sys are made from EPS, PU or mineral wool (MW) with a bonded combi-bracket and webbing as well as coating on the reveal surface.

Window reveal and lintel element
Lai-Sys

- Lengths: 1350 / 1600 mm
2000 / 2500 mm
- Widths: 155 / 195 / 235 mm
300 / 400 mm
- Thickness
 - EPS: 14 / 24 mm
 - MW/PU: 24 mm
- Thermal conductivity
 - EPS: 0.035 W/mK
 - MW: 0.037 W/mK
 - PU: 0.029 W/mK
